

Universal glass decorations

Opoczno's universal glass decorations consist of types sets of ornamental tiles – borders, mosaics and insertos. With rich colours and varying dimensions, these individual elements can combine well with most wall tile collections (not just Opoczno tiles). They work best with uniform colour tiles (matt or gloss), in vivid or pastel colours.

With a multitude of patterns and options available, glass decorations provide inspiration to create a unique interior. They can be combined with the primary Opoczno collections, using just a single type of decorative element or forming more elaborately coloured patterns. Mosaics and insertos can also be combined with borders of the same colour.

Glass decorations might serve as an eye-catching element in a room, or subtly embellish an interior. They are primarily for use in bathrooms and kitchens.

MOSAICS

Two-colour mosaic tiles can be composed with all tile formats. They can also be used on curved surfaces such as a bathtub surround or an arced wall.

Another advantage of mosaic tiles is that they can also be cut into borders, one or more pieces wide, thus creating even more decorative elements in the interior of a bathroom or kitchen.

possibility of cutting into smaller components

INSERTOS

Ornamental glass inserto tiles, featuring a three-dimensional effect, are extremely decorative. The play of light on the relief creates striking reflections, brightening up the interior. In conjunction with smooth tiles, they add a strong accent to the room. They combine perfectly with both matt and gloss tiles.

We offer them in three complementary formats:

- rectangular 9.9 x 29.7
- square 20 x 20
- square 9.9 x 9.9

Size: 1,5x40; 2x45; 2x50; 2x59,3; 2x60; 4,8x60
