NEW PORCELAIN TILE COLLECTIONS

Cersanit presents 5 modern-style
collections of 29,7x59,8 cm size
porcelain tiles.

5 MODERN-STYLE COLLECTIONS

**BIG IDEAS
FOR YOUR
BATHROOM**

For some seasons now, large-format tiles have enjoyed unwavering popularity among customers. Cersanit responded to this trend by launching non-rectified porcelain tiles in a new 29,7x59,8 cm format.

All of our 5 new and highly modern collections are inspired by architectural concrete that is much-liked and frequently used by interior designers and decorators. New Cersanit porcelain tiles offer both a literal interpretation of this design trend and a colour variation within the design theme.

Monti, Memories and Serenity collections are dominated by grey colours. All of them are

perfect for use in modern interiors inspired by loft and industrial styles.

Harmony and Normandie collections feature an intriguing blend of traditional concrete-like grey plus warm beige and brown shades which gives the possibility of designing interiors using non-standard colour combinations. Harmony tiles are provided with an additional decorative element – a delicate wood pattern.

All of the presented collections have high technical parameters and as a result they are suitable for use both in bathrooms and high-traffic areas such as entrance lobbies or living rooms.
