## NEW COLLECTIONS

**PORCELAIN TILES**  
32,6 x 32,6

Cersanit presents new collections of 32.6 x 32.6 cm glazed porcelain tiles, reflecting the current global design trend toward greater use of natural stone and concrete.

The subdued colours and neutral design will work well in composing both a warm and cosy interior, or a minimalist and austere one, in a classic or contemporary style.

Porti collection is unique because of its rustical structure. It is lending the tiles a more austere, industrial character, so popular in trends nowadays.

These tiles are available in 3 colours – cream, grey and brown. Because of their anti-slip features and frost resistance parameters, Porti tiles can be used both indoors and outdoors.

----------	-------------------------------------	--------

Enviro porcelain tiles are designed to look like raw concrete – a very popular material, especially among top interior designers in western Europe.

These tiles are available in 3 colours – universal cream, contemporary grey, and avant-garde anthracite – which offer the opportunity to create eye-catching arrangements.

The collection also includes decorative tiles with a glinting geometric print, available in grey and cream.

TRATO

The use of graphic elements based on natural stone - travertine, lends the Trato collection an elegant touch. These tiles are available in warm, natural shades (cream, beige and grey) and are perfect for classic interiors with neutral colours.

These tiles go well with Talo 45x45 porcelain tiles, and laid next to each other they create a unique and attractive effect.
