

## NEW COLLECTIONS

of 30x60 format  
monoporosa tiles

Cersanit presents  
two unique collections of tiles:  
NATURE and FARO

# NEW COLLECTIONS

NATURE \_\_\_\_\_ 3

FARO \_\_\_\_\_ 7

Cersanit's new tile collection represents a return to nature and its roots. It seeks beauty and balance in the natural environment and draws inspiration and vitality from its hues.

While the world spins by at a dizzying pace, it is worth having a peaceful oasis at home, an asylum where we can enjoy true rest and relaxation.

The tiles in the Cersanit Nature collection were designed to create modern spaces close to the natural world, tapping into its positive energy and offering solace after a hard day.

The delicate colours of the collection – white, natural greens and wood-inspired brown – help create very friendly, bright and warm interiors.

With a wide range of decorative tiles available, everyone can compose their own arrangements ideally suiting their individual tastes and preferences.

Decorative glass elements perfectly reflect light lending glamour to all interiors.

At the same time, the Nature collection offers a very modern interpretation of the natural world. This is particularly evident in the wood-motif tiles, a style that has become very trendy in recent years and is present in top designer-name collections.

The modern aspect of the Nature line is also further accented by decorative glass-and-ceramic inserto tiles – the way they play with light lends very interesting visual effects to interiors.

In small, often dark and windowless bathrooms, the choice of appropriate tiles is incredibly important. Consumers often look for tiles which would optically enlarge and illuminate the interior giving it a friendly, light and happy ambience.

The FARO collection perfectly fulfills this condition - white base tiles, delicate pastel decorations with diverse color saturation, and an original floral inserto create a cohesive composition that can be freely arranged in virtually any interior.

Multi-color decoration tiles, available in two versions - stronger, more saturated stripes and subtle, water-color lines, can be freely combined in an easy way, creating individual arrangements on walls. It is a great fun and a work that can be done by oneself, without the interior designer's assistance.

The collection also includes an original, granilia-decorated floral inserto - perfect for the enthusiasts of interiors in which modernity is mixed with tradition and a rustic, or even folk character.
