

FLOORWOOD

Floorwood is a modern collection of Opoczno tiles, inspired by wood patterns, imitating old, worn wooden boards. The tiles have a satin, soft to touch surface with a „lappato“ finish. The design of the collection, in line with the latest trends, allows for a wide application in various types of interiors – perfectly suited to modernist lofts, natural Scandinavian-style interiors or ambient arrangements with „retro“ elements.

The minimalist colour scheme in four whitened shades and three oblong formats offers many tile composition possibilities. You can combine formats in one colour or arrange the interior by juxtaposing tile colours that complement each other.

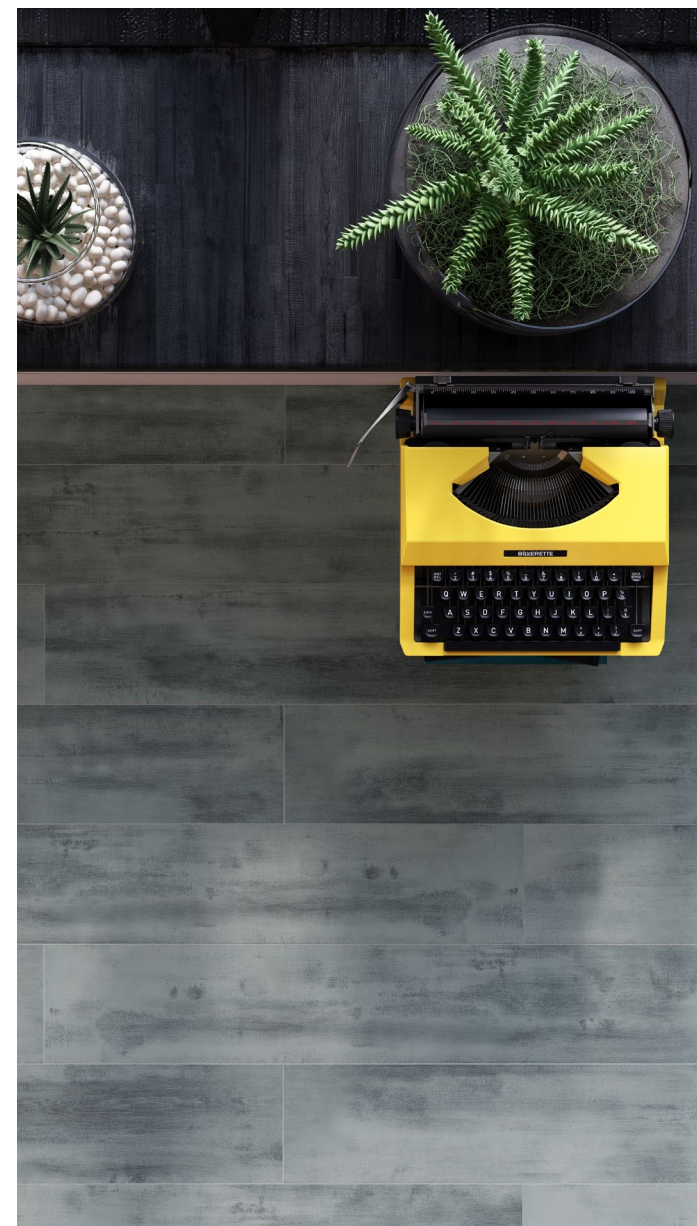

Floorwood is a very good alternative to natural wooden boards. The tiles have a 6-year warranty instead of the standard 3 for wood. They are easier to maintain, and with the glazed surface they require no impregnation. Perfect for the living room, bathroom and kitchen. Floorwood tiles are rectified. This allows you to apply a minimum joint width, which will result in greater prominence of the unique wood pattern.

Size: 44,4x89; 22,1x89; 14,7x89

Number of elements: 12

Base tile colour: white, beige, grey, graphite

Surface type: lappato

Design: modern wood

Technology: glazed porcelain tile

Application: for use inside (living room, kitchen, bathrooms)

TONAL TILE
Various colour shades and diverse patterns of the tiles provide the perfect imitation of natural materials, such as wood or stone.

Note!
We recommend installation in arrangements involving the dislocation of a single tile with respect to another by 1/3 of the tile's length at the most.
